

# Cadcorp Celebrates 25th Anniversary

In December 2015, British GIS software company Cadcorp celebrated 25 years of successful business by inviting all staff to an anniversary lunch at the Institute of Directors, London. The event was attended by Mike O'Neil and Adam Gawne-Cain, Cadcorp's founders, along with former shareholders and investors in the company.

In 2015, Martin Daly, technical director, and Trevor Armstrong, finance director, completed a management buyout of the company. This secured the company's future as one of the UK's leading independent GIS software businesses.

In a short speech following the lunch Mike recounted something of the company's history, following which a presentation was made marking his contribution to the company's

success over the years.
