

# CEE HydroSystems Adds New European Distributor

Hydrographic survey single beam echo sounder manufacturer [CEE HydroSystems](#), with offices in Sydney, Australia and San Diego, USA has entered into a new 2016 distributor agreement with marine and land survey specialist Geometius b.v. As a Trimble dealer, Geometius is now able to offer CEE HydroSystems' survey-grade echo sounders along with their positioning solutions.

To support [Geometius](#) and other Trimble dealers also supplying [CEE echo sounders](#), the company will shortly release the first CEESCOPE 'all in one' echo sounder system to feature integrated Trimble GNSS receivers. This new CEESCOPE GNSS option makes it easy for customers to incorporate the system into existing Trimble survey infrastructure.
