

MMT to Speak at OTC2016 Houston

MMT is to present at OTC 2016, Houston, in the session titled 'Pipelines: Technical innovations offshore'. MMT's founder Ola Oskarsson has been on the fore front of technical developments within high resolution seabed mapping, positioning and navigation over the past 40 years. The title on paper: 'ROV Based Survey: A New, More Effective Approach' by Ola Oskarsson OTC2016 and is scheduled at Session 23, Tuesday 3 May 2016, from 1400 – 1630 hrs.

Ellen Svestad, CCO, MMT comments the opportunity to present for this speaking slot in the world's largest Oil & Gas exhibition & Conference is a huge acknowledgement.
