

SeeByte to Demo Three Autonomy Systems

SeeByte, headquartered in the UK, is attending the Pax River Event at Naval Air Station Patuxent River from 12 to 25 September 2015. SeeByte's™ team includes seven members, including CEO Dr. Bob Black and SeeByte Inc. director Jon Wood who will both be attending the VIP day. SeeByte is demonstrating new autonomous capabilities for unmanned underwater vehicles (UUVs) in collaboration with several international partners.

SeeByte has developed autonomy platforms enabling multi-vehicle collaboration and inter-fleet communications, as well as autonomous solutions for Mine Counter Measures.

Bob Black, CEO of SeeByte, commented that SeeByte is attending to demonstrate their capabilities and to work closely with clients to ensure SeeByte is well positioned to meet

their future needs.

Pax River is sponsored by the Office of Naval Research (ONR) and will involve 150 participants and 26 technology teams and unmanned systems to provide demonstrations of UUV technology.
