

QPS Named as DPC Innovation Awards Finalist

Qimera, QPS' entry into the Innovation in Dredging Equipment category of the Dredging & Port Construction Innovation Awards 2016, has been selected as a finalist. The inaugural DPC Innovation Awards are the first universal benchmark of quality within the dredging and port construction industry. The judging process involves companies from all over the world submitting their entries to be judged by elite industry experts, making the DPC Innovation Awards the most coveted industry accolade.

The finalists will be celebrated and also the winners will be announced at the DPC Innovation Awards 2016 ceremony being held at the London Marriott Hotel, Grosvenor Square, Mayfair, London, on the evening of 10 November 2016. [Tickets are available for online sale](#) or by contacting IHSD.
