

# Ashtead Appoints UK Regional Director

Ashtead Technology has appointed Brett Lestrage as UK regional director. Bringing more than 25 years' experience in the subsea industry, Lestrage will lead Ashtead's UK sales and technical team. Based in Aberdeen, Lestrage joins Ashtead from HCS Control Systems where he held the position of chief executive officer and developed the business as a service-led subsea manufacturing company, expanding its customer base locally and internationally.

Prior to this, he was a founding partner of Frontrow Energy Partners and held a number of senior and technical positions at Expro Group, including head of subsea. Originally from Sydney, Australia, Lestrage began his career in the oil and gas industry in 1992, when he joined Woodside Offshore Petroleum as a graduate engineer.
