

Hydrographic Society Benelux

BLAST Conference 2011

The upcoming Bringing Land And Sea Together (BLAST) Conference 2011, is to take place on 22 September 2011 in Ostend, Belgium, highlighting the progress and results of the BLAST project so far. Members of the Hydrographic Society Benelux can attend this conference as a workshop.

The main focus of the conference will be on recent developments in BLAST-related fields. The plenary session will highlight the newly developed integrated master plan for the Belgian coast, EU-related developments on S-100 and Inspire, Integrated Coastal Zone Management and Marine Spatial Planning and e-navigation.

In addition to the regular programme, connections will be made to other interesting projects dealing with BLAST-related themes, such as the closely related SUSCOD project working towards Sustainable Coastal Development and Integrated Coastal Zone Management.

Sound Technologies

This workshop will be organised during Europort 2011 in Rotterdam, on 10 November 2011. Theme of this workshop will be 'Sound Technologies'.
