

# Hydrographic Society Benelux

## Workshops for 2nd Half of 2015

The Hydrographic Society Benelux (HSB) 1 is organising a workshop on 11 September 2015 with the theme Underwater Positioning. The event will be held in a special venue: an old fortification that has been turned into a conference venue. The fortification has been renamed GEO fort 2 as particular attention was paid to Geomatics in preparing the fortification for its new role.

A workshop will be organised In October at the same location as and in cooperation with Offshore Energy (this exhibition and conference in the RAI premises in Amsterdam runs from 13-14 October 2015 3). The HSB workshop focuses on Wide area positioning/PNT and is to take place on the first day of the event, i.e. 13 October.

The last workshop in 2015 is scheduled in Belgium on 11 December 2015, with the theme Climate XChange and Hydrography.
