“The old Surveyor”™

The summer of 2002 is almost history; it is still hot and the beach is where we dream to be, but where are you? Sorry, I could not see you behind the computer screen - oh, you are typing your input to the column “The old surveyor”™ - just carry on! Let these lines be a challenge. Forget the season - take up the challenge and send your mail with any opinion you have to mail@hydrosoc.dk

Event

HYDRO 2002

Sounding the Future

13th Hydrographic Society Biennial International Symposium in association with the German Hydrographic Society, Kiel, Germany. The symposium will provide the latest information on key policy and technical issues affecting future global hydrographic developments and requirements.

- Hydrographic Surveying and Mapping
- Navigation and Positioning
- Hydroacoustics
- Electronic Charting
- Port Traffic Control
- Coastal Zone Management
- Marine Environmental Monitoring
- Marine Data Management & GIS
- Education and Training
- Dredging

Please find the full programme on www.hydro2002.org. Let us all meet in Kiel - tune up your calendar for the days 8th to 10th October 2002 and make appointments for then with colleagues.

Local News

Local Events

At the moment of writing in late august we have almost completed compiling our event schedule for autumn 2002 and the spring of 2003. It will be announced on our web page www.hydrosoc.dk

Missing News

Your editor has been travelling a lot this summer and has had only one week holidays. Lack of time, therefore no input to Hydro international. Sorry.
