

US Hydro 2019 Kicks off in Biloxi

US Hydro 2019 is being held in Biloxi, Massachusetts, USA, between 19-21 March 2019. Among the major ingredients for the success of the conference are the exhibitors, support by government organizations, academia participation and individual attendance. Exhibitors include industry leaders in survey services, software and hardware. Government, media and academia will also be represented at the exhibition.

This year's conference is taking place at the Beau Rivage Resort & Casino. The exhibit hall and technical presentations hall are co-located allowing for maximum interaction and networking discussions with [exhibitors](#) and presenters. In addition, the conference centre is located within close proximity of the [piers](#), not far from the exhibit hall, where exhibitors can take the opportunity to showcase their vessels and products for on-water

demonstrations.

The 2019 conference theme is 'Our Changing Oceans and Coasts: Driving Innovation in Charting'. Keynote speakers are Rear Admiral Shepard Smith, Rear Admiral John A. Okon and Dr Mathias Jonas, Secretary-General of the International Hydrographic Organization (IHO).

A detailed report of US Hydro 2019 will be published by Hydro International within due time.
