

1-4 December: Oi Connect

Oceanology International has been the world's largest ocean technology exhibition and conference for over 50 years. This year, a virtual edition of the event is being organized. Oi Connect (1-4 December 2020) is all about connecting the global ocean community virtually. As a visitor, Oi Connect will enable you to search for exhibitors across the ocean technology sector and arrange high-quality 1-2-1 video meetings – all via an integrated video meetings and chat platform.

But you won't be the only one looking for the start of a new business relationship. The exhibitors will also be able to do the same, and will look to contact visitors directly, identify key contacts, build relationships and create new connections.

1-2-1 meetings

A sure-fire way to ensure that you have as many high-quality meetings booked as possible, is to keep your profile up to date with relevant and interesting information so that exhibitors can spot you from an ocean away.

The Oi Connect platform allows users to create personal profiles, so that you have a tailored experience and only meet the people you are interested in. Just add your profile picture, interests, area of expertise and availability throughout the event for a highly valuable networking experience.

What's the next step?

[Register for Oi Connect](#), log into the platform and enjoy the ability to:

- Network with your ocean tech peers
- Source new solutions at the virtual exhibition
- Discover new insights at the virtual conference
