

Acoustic Doppler Current Meter Workshop

Aqua Vision organises the 7th Acoustic Doppler Current Meter (ADCM) workshop in The Netherlands. This year the workshop will be organised in co-operation with the Laboratory for Physical Geography of the Faculty of Geosciences of Utrecht University. The workshop will be held in the "Red Auditorium" in the "Ruppert" building, Leuvenlaan 19, Utrecht, on Thursday 18th November, 2004. The aim of the workshop is to promote the interchange of experience between ADCM-users. For everyone who works in hydrography it is an opportunity to get information on the functionality of ADCMs and the results of ADCM measurements. Moreover, new findings concerning the handling of ADCMs will be demonstrated. During this day all ADCM manufacturers will show their products. The workshop will be attended by all kinds of employers, such as surveyors, scientists and managers, working for the government, industry and research institutes in The Netherlands and abroad.
