

ADCPs in Action Gets Closer

Teledyne RD Instruments ADCPs in Action (AiA) Users' Conference will take place in San Diego (CA, USA) on 5 to 7 October 2009. This conference is designed to bring the oceanographic community together to share their ADCPs and DVL experiences.

This three-day event will include 47 presentations given by customers and industry experts from around the globe, seventeen Teledyne RDI product/software training sessions, one-on-one meetings with our field service team, three new product introductions, a growing list of poster papers, and 15 event co-sponsors representing the latest products, software, and technology designed to assist our users. This event also includes numerous social events designed to encourage networking and a free flowing exchange of ideas and information.
