

Arrival of Offshore Support & Survey Vessel Geo Ocean II

GEOxyz, headquartered in Belgium, recently took delivery of Geo Ocean II, the latest addition to its fleet of vessels. Geo Ocean II is a versatile offshore support & survey vessel. She can accommodate 23 passengers and crew, has a large survey room and comfortable accommodation facilities.

The vessel is capable of serving the offshore industry in various tasks, such as: geophysical survey work, ROV-operations, seismic surveys, guard operations, general support, geotechnical sampling, environmental surveillance, etc.

Geo Ocean II is classified by the classification society DNV and sails under Luxembourg flag.

With *Geo Ocean II* GEOxyz will provide its clients with cost-effective solutions for all kinds of offshore support & survey activities. *Geo Ocean II* will also give the company the possibility for further growth in the offshore renewables and oil & gas market.
