

Australian Education Award

Students studying or researching in a maritime discipline can look forward to be awarded by the Annual Education Award of the Australasian Hydrographic Society. This award supports capacity building in the Australasian area. The winner receives AU\$2,500 (US\$1783).

The award covers maritime disciplines as

- Hydrography, nautical charting, surveying at sea
- Coastal studies, coastal zone management
- Offshore resource surveys and management
- Port development and maritime engineering
- Law at sea
- Marine cartography
- Environmental studies
- Marine geology and geophysics

This list is not a limitation. Application forms are available from the Australasian Hydrographic Society Web Site. Closing date is Friday 7th December 2007.
