

Become an Exhibitor or a Partner of CHC 2020

The Canadian Hydrographic Association (CHA) will once again present the Canadian Hydrographic Conference (CHC) and welcomes you to join them at the Québec City Convention Center, from February 24 – 27, 2020. The CHA offers partnership and exhibition opportunities. The Canadian Hydrographic Conference is an exciting opportunity to reach a large, international audience of leading researchers in the field.

The organizing committee has an array of partnership opportunities for large and small companies alike. There are opportunities for branding, exhibition, and advertisement, and it is possible to tailor a package to suit your company's needs.

All the opportunities can be found in the partnership plan on the CHC2020 website. Please note that exhibitors will be located by the poster, lunch, and coffee break room.

Partnership Plan Workshops

If you would like to hold a workshop on Monday, February 24, 2020, the organizing committee invites you to contact the CHC2020 secretariat at chc2020@conferium.com. It is possible to reserve the equipped conference room for three hours or a full day.
