

# Bluefin Presence at Oceans'11 IEEE

Bluefin Robotics will be presenting two technical papers at the OCEANS'11 IEEE Conference in Santander, Spain, held this week. Dr. Dani Goldberg will be presenting his paper titled "Huxley: A Flexible Robot Control Architecture for Autonomous Underwater Vehicles". and Mr. Robert Panish is presenting his paper titled "Achieving High Navigation Accuracy using Inertial Navigations Systems in Autonomous Underwater Vehicles".

Bluefin Robotics and EMS Sistemas de Monitorización Medio Ambiental, S.L.U., Bluefin's representative for Spain and Portugal, will also be exhibiting at the conference.
