

Echoview Training in Europe

Dr Toby Jarvis from the Echoview team will be running a three-day Echoview training course in Ceske Budejovice, Czech Republic from 3 to 5 September 2014.

[Registration of interest can be submitted online](#) by Wednesday 6 August. Alternatively, from 8 to 11 September 2014, Toby will be available in that location there to discuss all things acoustic and Echoview which is based in Australia. If that doesn't work out, there's an option to arrange a visit to an institute while Echoview is 'in the area'.
