

EIVA Worldwide Training Programme for 2014

The dates for the EIVA software training courses of 2014 have been finalised, offering training courses at various locations throughout the world – and the highest number of locations and courses to date.

The survey software specialist EIVA provides training courses, enabling users to get the most out of their solutions. Both standardised and tailored courses are offered, ensuring that the content matches the participants' needs perfectly.

The courses are arranged by either EIVA or a member of its international network of Training Partners, including for example Atlas Services Group. All courses are carried out with EIVA employees as instructors, providing course participants with up-to-date know-

how from the source itself.

Locations include the UK, Singapore, USA (Houston), Nigeria, Dubai, Australia, Trinidad, Canada, India, Hong Kong, Brazil and Denmark.

The complete list of training courses is available at www.eiva.com/services/training-courses.
