

EM3001D Multibeam Order for Geo Plus

Kongsberg Maritime Holland has been awarded the order for delivery of an EM3001D dual head multi-beam system for the new 16,5 meter new-build Multi Purpose Vessel "Geo Explorer" of Geo Plus.

It is the second Kongsberg multi-beam system in 2 years. The EM3001D will be used for in and offshore survey in various applications world-wide. Delivery and commissioning of the EM3001D is in September 2007.
