

ENC Tools User Conference

SevenCs' second user conference will be on 1st November 2010 in Rostock, Germany, just before Hydro 2010. The one-day conference will feature guest speakers, hands-on seminars, and the opportunity to meet the team so questions can be asked to the company directly.

The programme will focus on

- Visualisation of 3D DTED and gridded bathymetry (BAG) with ENC's
- Web Map Services for S-57/ARCS combined with other geospatial data
- ENC encryption in accordance with IHO S-63
- Automatic depth line generation for ENC's
- ENC's for inland and port applications
