

Event Schedule Announced for Teledyne Marine/DASCO Equipment Joint User Conference

Teledyne Marine and local manufacturers' representative, DASCO Equipment, have announced the availability of the schedule for their jointly hosted User Conference in Halifax, Nova Scotia, Canada, on 18 and 19 September 2018. This event, which will concentrate on oceanographic and hydrographic technology, will include customer presentations, product/software training, on-water demonstrations and the opportunity to consult with Teledyne's technology experts. As with Teledyne Marine's other workshops, this User Conference will encourage idea sharing, lessons learned and networking opportunities in a relaxed yet highly productive environment that is ideally suited for learning and engagement.

Full event details, including the schedule and online registration [can be found here](https://www.hydro-international.com/content/news/event-schedule-announced-for-teledyne-marine-dasco-equipment-joint-user-conference).
