

FSI 2D-ACM Current Meter in Peru

Falmouth Scientific, Inc has shipped its 2D ACM Current Meter to the Velfi-Cosapi Consortium in Peru, where it will be installed at the ship-loading berth of the Camisea Upstream facilities in Pisco. The berth is a new facility to be located 3 kilometres offshore in Pisco Bay and will be used to load diesel, naphtha and refrigerated propane and butane onto ocean-going tankers.
