

# FSI's Ships 3 CTD to Shirshov Oceanology Institute in Russia

FSI has recently shipped a 3 Micro CTD through its Russian representative, Technopole to Shirshov Oceanology Institute of Russian Academy of Science. The CTD will be deployed in the Baltic Sea up to 500 metres. The CTD was equipped with various sensors including an AMT Dissolved Oxygen sensor, AMT pH sensor, Seapoint Chlorophyll Fluorometer sensor and Seapoint OBS/Turbidity sensor. FSI's 3 Micro CTD is a high-accuracy CTD with either direct digital output or 2MB datalogging capability.
