

Fugro Awarded Offshore Survey by PEMEX

Mexico's national oil company, PEMEX, has awarded an offshore multi-site geophysical and geotechnical survey to Fugro (Mexico), to run between September 2014 and May 2015. The company is to fulfil the large offshore multi-site high-resolution geophysical and geotechnical survey in conjunction with long-time associates, Constructora Subacuatica Diavaz.

Offshore operations, laboratory testing and geoconsulting activities will support design and/or installation of platforms, pipelines, jackups and deepwater facilities. The total value of the contract is USD31.5 million, and all work is planned between September 2014 and May 2015.
