

GNSS Symposium

Land of Berlin, the EUPOS Steering Committee, the International Committee of Global Navigation Satellite Systems and the UN Office for Outer Space Affairs are organising a symposium on Global Navigation Satellite Systems, Space-based and Ground-based Augmentation Systems and applications. The symposium will take place from 11 to 14 November 2008 in the Berlin Rathaus (City Hall).

Topics of the symposium are

- GNSS providers and global ground-based services and analyses
- Regional reference systems
- Quality Assurance, Improvement of DGNSS and RTK
- Public and private services and activities
- Applications
- Companies

The Symposium will be accompanied by a trade exhibition. Exhibitors may have their say in the Companies session.

The organisation is calling for papers. Abstracts can be submitted by 18 July 2008 by e-mail to [Gerd Rosenthal](#).
