

# H&S Certification for Osiris Projects

Osiris Projects, headquartered in the UK, has achieved OHSAS 18001:2007 certification, accredited by NQA for their health & safety management system has successfully achieved. The company is also working on improvements to their environmental management system, and anticipate ISO14001:2004 certification to be awarded within the first quarter of 2013.

OHSAS 18001:2007 is the internationally recognised standard providing a cohesive framework for the monitoring, management and continuous improvement of occupational health and safety. This follows a year for the company in terms of health and safety when unprecedented exposure hours worked resulted in a 0% recordable case frequency.
