## Internships Ads at Young Geo Professional

Young Geo Professional is opening up its job board for free advertisements for interns. This way companies may be able to reach the right scholar with the right aptitude for the profession. Such young people may have new insights and ideas to offer in return for an internship to exercise their skills.

The internships can be added by the companies themselves using the job submission page, starting the job title with Internship: . Doing so, these opportunities will be easy to recognise. Of course, you are requested to complete the other fields as well!
