

iSURVEY Group Celebrates Growth with New Office

iSURVEY Group, a provider of survey and positioning services to the global oil and gas and telecommunications sectors, has marked a successful first year for its UK division with the launch of a new office in Aberdeenshire. Meet the iSURVEY team at Ocean Business on stand K10.

Since an initial GBP500,000 investment in early 2014 to set up UK-based iSURVEY Offshore Limited, a number of new appointments have taken onshore staff numbers to six, in addition to a further 20 personnel who are mobilised to offshore projects for the UK entity. In line with the company's growth strategy, it is expected that another three onshore staff, and as many as 10 offshore, will be recruited to the team during 2015.

iSURVEY Offshore Ltd also announced a number of contract wins throughout the last year with major operators including Bibby Offshore and Jumbo Offshore. A profitable first year in 2014 accumulated revenue in excess of GBP2million, and external sales GBP300,000 ahead of budget.

iSURVEY will be holding an open day on 11 May at its Banchory premises, where invited guests will hear about the company's exciting future expansion plans and view the new facilities. This includes an onsite workshop, storage yard and offices.

iSURVEY Offshore Ltd is part of the Norway-based iSURVEY Group, which also has a busy operational base established in Singapore.
