

iXSea MetOcean Deal

iXSea has signed a deal with MetOcean Engineers Pty Ltd (MetOcean), Western Australia for fifty OCEANO 2500 Universal acoustic releases.

MetOcean Engineers Pty Ltd (MetOcean) is a consultancy company providing oceanographic and meteorological services in support of coastal and ocean engineering and environmental protection. It works in physical oceanography, supplemented by strong resources in marine and local, land-based meteorology. The acoustic releases are used by oil-industry clients for meteorological buoy, directional wave-rider, tide-gauge and current-meter moorings in the Timor Sea, Northwest Shelf and Bass Strait.
