

John Morse Joins Atlas Focussing on Offshore Wind

With over 40 years of experience in commercial and operations management, business development, sales and marketing, Atlas Professionals welcomes John Morse as the new business development manager for the Offshore Wind business line. John will focus on developing Atlas' client base for offshore wind farms situated in the UK and will pay particular attention to Tier 1 clients involved with Round 3 Offshore Wind Farm projects.

John is a trained geologist and has experience in international management in the renewables and survey industry. John has previously held executive positions on the East of England Energy Group (EEEGR) and is currently a director of the Wind Energy Collection Limited. He has therefore shown his interest and commitment in the UK renewables sector for many years.

Atlas Professionals is an international recruitment company. Since 1982, Atlas has played a major role in the provision of professionals to the energy and marine industries worldwide.
