

# Karen Hart to Succeed Paul Cooper

Paul Cooper

Karen Hart

Tami Beduhn

After 10 years at the helm of Teledyne CARIS USA, Paul Cooper will be retiring on 14 October 2016. Following Paul's retirement, Karen Hart has graciously accepted to take on the responsibility of Director of the Teledyne CARIS' USA operations and will be spearheading the team to further develop the US market. Tami Beduhn will take the position of NOAA's account manager that Karen held.

Karen holds an MSc in Oceanography and has 16 years of experience in hydrography and oceanography, 9 of which have been with CARIS.

Tami holds a MEd in Ocean Mapping and previously worked for NOAA prior to joining CARIS in 2014.

Paul joined CARIS from Leidos (formerly SAIC) and prior to that, enjoyed an illustrious career with the US Naval Oceanographic Office working on many international projects in the fields of Hydrography and Oceanography. Paul will be keeping in close communication following his retirement and will remain active in the industry.
