

# Know Everything About IMCA

A new free CD from IMCA - The International Marine Contractors Association – provides the answer to almost every question anyone could want to ask about the association, its role, history and achievements, structure, membership, activities and deliverables. The IMCA, with its 240+ members in more than 35 countries represents offshore, marine and underwater engineering companies. With four technical divisions, covering marine/specialist vessel operations, offshore diving, hydrographic survey and remote systems and ROVs, plus geographic sections for the Americas Deepwater, Asia-Pacific, Europe & Africa and the Middle East & India regions, IMCA seeks to promote its members'™ common interests, to resolve industry-wide issues and to provide an authoritative voice for its members.
