

# Launch of Oxford Blue Systems

RBR Europe Ltd (UK) has launched a new company Oxford Blue Systems Ltd. This company represents manufacturers of complementary equipment for survey, off-shore, monitoring and research applications. System integration for monitoring equipment, data buoys and real-time data web-hosting, will also be key services.

Products of [Oxford Blue Systems](#) include echo sounders and altimeters for scour detection, magnetometers and side-scan sonar for survey, inspections and recovery, rugged water-proof computers and UAS unmanned aircraft for aerial reconnaissance. The portfolio will be expanded as suitable equipment and sensors are identified.
