

MacArtney Appointed as TriOS Product Representative

The MacArtney Underwater Technology Group announces that the Group has been appointed as exclusive product representative for Denmark, Norway, Sweden, Finland, Iceland, Belgium, Luxembourg, Italy, Spain and the USA by TriOS Optical Sensors. Further to the above, MacArtney has also been appointed non-exclusive product representative for the United Kingdom, Ireland, France, Germany, the Netherlands and China, with focus on the environmental and non-industrial markets. The agreement includes TriOS Optical Sensor solutions for environmental research and monitoring applications in oceans, rivers and lakes as well as in industrial and offshore markets. The sensor palette comprises hyperspectral light sensors, turbidity meters, photometers and fluorometers.
