

Measutronics Appointed as TSS Sales Rep

TSS (International) Ltd has appointed Measutronics Corporation (Lakeland, FL) as an authorised sales representative. The Measutronics staff received training in January at the TSS U.S. Office in Houston, TX and the agreement was signed in Las Vegas at the HYPACK Conference. Measutronics is a full service provider of marine positioning and guidance systems for: vessel(s) navigation, precise piling and structure placement, dredging operations, local and remote vessel tracking and monitoring, excavator operations, and hydrographic, bathymetric and coastal surveying.

Measutronics will be responsible for the sales and support of the TSS product line including: Dynamic Motion Sensors, Meridian Gyrocompasses, and the MAHRS and Marinus Inertial Navigation Systems.
