

Midwest Chapter for THSOA

The Hydrographic Society of America would like to announce the formation of the Mid West Chapter. The newly formed chapter will serve as a focal point for hydrographic activities in Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota & Wisconsin. The chapter will hold its inaugural meeting in June 2016 in Chicago, IL.

In order to make the inaugural meeting a success, THSOA would like interested members to please take the Mid West Chapter member survey at <http://goo.gl/forms/haUs9g3r0l>. Questions in the survey include:

Are you interested in participating in the Mid West Chapter?

Would you be able to attend bi-annual meetings?

Are you interested in becoming an officer for the Mid West Chapter?

Would your employer sponsor/host a future meeting?

Would your employer partly or fully fund the event?

Members who fill out our member survey and leave their information will be contacted. The Mid West Chapter will also plan on having its second meeting in December 2016 so please make sure to subscribe to our emails at www.thsoa.org/subscribe and select to receive the Mid West Chapter News.

For further information, please contact Alma Alling at (+1) 774-773-8470, visit THSOA's website at www.thsoa.org, or send an email to alma@thsoa.org.
