

# MSI and AMI Join Forces

Metocean Services International (Pty) Ltd (MSI) have signed an agreement with Aerospace & Marine International for the provision of weather forecasts to the international offshore oil and gas industry.

Clients of MSI will receive custom forecasts accessible via secure web servers or distributed via e-mail and/or fax. Forecasts may be presented in text and graphical formats for easy dissemination and application, featuring:

- Wind speed and direction
- Sea height and period
- Primary and secondary swell height, direction and period
- Combined wave heights
- Visibility
- 24-hour access to custom forecasts via any Internet-connected computer
- Clients' unique information needs
