

Navis Makes its Full-scale Debut at Europort 2005

At the Europort 2005 international maritime exhibition in Rotterdam, the Netherlands, to be held on 1-5 November, 2005, Navis Engineering OY will, for the first time, be represented with its own stand. At this show Navis will demonstrate its latest developments in the field of dynamic positioning and ship automation systems. The products on display will include Navis IVCS 3000 dynamic positioning system, Navis JAP 3000 joystick control systems, Navis AP 3000 autopilot and Navis CAMS Control, Alarm and Monitoring System. Founded in 1992, Navis Engineering OY has its headquarters in Helsinki, Finland, and a development site in St. Petersburg, Russia. Navisâ€™ international clients include NOAA, Hornbeck Offshore Service, Candy fleet, and AMT Marine amongst others.
