

New Managing Director for Atlas Hydrographic

Allan Bertelsen is the new Managing Director of Atlas Hydrographic GmbH, a subsidiary of Atlas Elektronik. Until now, Allan Bertelsen had managed the business of the Danish subsidiary Atlas Maridan ApS.

The activities of the Atlas Elektronik Group for the commercial and civilian market will in future be concentrated within Atlas Hydrographic. This field includes the development and manufacture of unmanned, autonomous underwater vehicles and scientific surveying systems with which, for example, pipelines, offshore installations and the seabed can be monitored, surveyed and mapped. Atlas Maridan will also be offering services relating to the deployment of unmanned underwater vehicles.

His predecessor, Ulrich von Somnitz, will be returning to Atlas Elektronik GmbH.
