

New Market Development Manager Joins YSI Inc.

Rob Ellison has joined YSI Inc. as the Global Market / Business Development Manager for the Company's line of environmental monitoring products and systems.

In his new role, Mr Ellison will become an interface between environmental scientists and YSI. He will also work with key customers and distributors worldwide to develop continuous monitoring systems for water resources.

Mr Ellison comes to YSI with eight years of increasing experience at Turner Designs, Inc. an environmental instrumentation company specializing in fluorescence instrumentation. He holds a Masters degree in Biological Oceanography from Old Dominion University.
