

New Veripos Americas Appointment

Veripos appointed Stephen Browne as Regional Manager of its Americas operations with responsibility for management, technical support and marketing of its high-precision networks covering North and South America.

Based in Houston, he joins Veripos from Fugro Chance Inc, where, following Fugro's acquisition of Thales GeoSolutions and the SkyFix DGPS system, he was Positioning Manager - International Marine responsible for unmanned positioning activities throughout the Americas. President of the Institute of Navigation's Houston Chapter and Vice-Chairman of The Hydrographic Society of America's Houston Chapter, he is also an active DP Committee member of the Marine Technology Society.
