

Oceanology International Offers Glimpse of Ocean Technology

The biannual tradeshow and conference Oceanology International is to take place from 11 to 13 March 2014 in the ExCeL Centre, London, UK. This event features more than 525 companies from 35 countries, waterside demonstrations, workshops, presentations and a conference showing the newest technologies for operating and protecting in the world's oceans, as well as the dedicated oil spill event Spillex.

Follow the link below and access the PDF to see *Hydro International's* overview of companies that have reached out to unveil their news. In view of the exciting technology and research developments in recent years, we are eager to know what the future will bring! The conference will undoubtedly cover technologies that are knocking on the door of the tools we will be using in the years to come.
