

Offshore Weather Forecasting Presentation by AXYS

On the morning of Tuesday 4 April 2017 at 9:30am, Graham Howe, director of Sales – Europe of AXYS Technologies, will be giving a presentation that shows how AXYS' cloud-based geoportal AXYS-APS has been used to improve the accuracy of weather forecasting for offshore operations, using a case study from an offshore wind construction project. This presentation will take place in Classroom – Node – Room 2 074/02 of the National Oceanography Center.

AXYS Technologies will be exhibiting at Ocean Business 2017 at the National Oceanography Centre in Southampton, UK. Visitors to the AXYS booth will learn about the AXYS range of solutions including WindSentinel FLiDAR, the TRIAXYS with currents buoy and AXYS-APS. In addition, a selection of AXYS' strategic partners will be available to

discuss their complementary range of services.
