# OI18 Issues Call for Abstracts

Technologists seeking to describe a new development, scientists or engineers wishing to share a new application or users of ocean data wanting to share their specific needs are invited to submit an abstract to the Oceanology International 2018 technical conference programme. The deadline for submissions is 15 September 2017.

The descriptions for each track (summary below) and submission guidelines are on the OI website. Potential participants who have any questions about the above technical tracks and how they can get involved as a speaker, chair or contributor, are requested to contact Ellen Burgess.

The topics for submission are:

- Unmanned Vehicles and Vessels
- Hydrography, Geophysics and Geotechnics
- Navigation & Positioning
- Underwater Imaging & Metrology
- Ocean Observation & Sensing
- Ocean Information & Communications Technology
- Monitoring Structural Integrity
- Delivery Efficiencies Across the Offshore Oil & Gas Life Cycle
- Marine Renewables
- Aquaculture
- Delivering Information & Data Needs for Coastal Engineering
