

Overview of Oil & Gas Activity to 2017

Infield Systems is exhibiting at the Offshore South East Asia Oil & Gas Exhibition and Conference in Singapore from 27 to 30 November 2012. At OSEA 2012, the company will be launching two new products: the Offshore Asia Oil & Gas Activity Map to 2017 and the Offshore Asia Pacific Oil & Gas Market Report to 2017.

The Offshore Asia Pacific Oil & Gas Activity Map to 2017 is one in a series of wall maps published by Infield Systems, and will be available free of charge to all visitors, exhibitors and delegates at OSEA 2012 from Booth BC2-01. A limited number of other maps will also be available, including South & East Africa, Arctic Frontiers, Gulf of Mexico and the Norwegian, Baltic and Barents Seas. These popular maps are available on a first-come, first-served basis.

The Offshore Asia Pacific Oil & Gas Market Report To 2017 is comprised of two volumes, one covering Asia and the second Australasia, which can either be purchased individually or as a report package. Purchasers of these new reports receive online access to the relevant regional oil and gas projects database. Infield Systems will have copies of the reports available on the stand.

Steve Adams, Infield Systems' international sales manager, and Matthew Sharpe, associate analyst, will be part of the team at OSEA 2012.
