

Port of London - New Interactive Map

A new interactive map of the Port of London area can now be viewed online. The map shows the location of the port facilities and marine terminals on the tidal Thames. It will be a useful tool for people involved in transport, logistics, shipping and related fields. The map can be viewed at www.portoflondon.co.uk/rivermap

Features include:

- Information on over seventy Port of London terminals
- Ability to “zoom in”™ from a map of the London and south east area to pinpoint the specific location of any terminal
- Details of proximity to transport networks
