

# QPS Application Training

QINSy Reseller SAFA Geoscience Malaysia has successfully conducted two sessions of QINSy+QLOUD application training at PT Pageo Utama office in Jakarta (Indonesia). This was the second training outside Malaysia conducted by SAFA Geoscience Malaysia. The first was in Singapore for Geomatra International.

The basic application training for their 7 newly employed surveyor/survey technician/data processor took place from 22nd May 2007, during four days. The second session was another 4 days from 26th May 2007. This was the advance application for their ten experienced surveyor/survey technician/data processor. They will be using QINSy+QLOUD for all their future projects. Current contracts are for BP Indonesia, CNOOC Indonesia and TOTALFINAELF Indonesia. They are looking forward to secure

more surveying for oil&gas related projects in Indonesia in the near future.
