

Remote Ocean Systems Partners With MacArtney

Remote Ocean Systems (ROS) has agreed a cooperation with the MacArtney Group, now exclusive distributor of Remote Ocean Systems'™ marine, military, and oceanographic products in Europe.

Remote Ocean Systems is a manufacturer of ruggedized lights, video cameras, positioning devices, and integrated systems for the petroleum, oceanographic, nuclear utility, and defence industries. The MacArtney Group's™ sales and service personnel at their facilities in Denmark, Norway, the UK, France, Germany, and the Netherlands are taking care of customer support. The ROS-MacArtney team combines the talents and capabilities of both companies to enhance the options available.
