

# Rugged Computer

The Duramond compact, fanless marine computer meets the requirements of IEC 60945 and is ABS Type Approved. It is designed for high-performance, low power processing, using an Intel Core 2 Duo Mobile CPU with speeds up to 2.2GHz.

It features multiple I/O ports, 2 PCI expansion slots, solid state flash storage and 110/220VAC or 24VDC input power options. With no moving peripherals, the DuraMobile Type Approved marine computer is developed for applications such as AIS, ECDIS navigation and ship systems monitoring.
